Berlin, Thursday, April 10.—(Delayed)—The Munich revolutionary council has ordered the immediate release of all prisoners of war in Bavaria. The order frees thousands of Russian prisoners, including the Russian communist, Axelrod.

By Associated Press Leased Wire
Copenhagen, April 11.—The revolutionary movement in Bavaria has now spread to Baden and agitators are working in Karlsruhe, Mannheim and other large towns, according to a Karlsruhe dispatch to the Acht Uhr Blatt of Berlin.

The agitators are said to be attempting to start a revolution and to proclaim a soviet republic in Baden. They would also unite Baden with Bavarian soviet government.

PEOPLE'S COUNCIL DISPERSED
By Associated Press Leased Wire
Copenhagen, Thursday, April 10.—(Delayed)—The council of people's mandates, which has been in control at Munich, has been dispersed by the communists, who have formed a communist government there, according to the Frankfurter Tages Post, of Nuremberg.

The Berlin Lokal Anzeiger is in receipt of Bavarian advices stating that the communist council in Munich was in session until 4 o'clock this morning and that it elected a new central council, the council men comprising five workmen and five soldiers with Herr Klatz, a bricklayer, as president.

The communist leader, Dr. Wien, refused to join the council.

During the night communists took over as hostages from the ranks of the trade union leaders, the Lokal Anzeiger advices say. They forced them to the main police station, disarmed the police and took the police commissioners and sergeants as hostages.

Pershing's Band Leaves for Home

By Associated Press Leased Wire
New York, April 11.—"Pershing's own band" organized by order of the American commander-in-chief to improve the standard of military music in the expeditionary force, has sailed for home on the Leviathan to aid in the Victory Loan, according to a cable message received by the liberty loan committee for the New York federal district.

This band, comprising 104 of the best musicians in the American army and a drum corps of 40 members, commanded by Captain L. H. Fisher and Lieut. Philip James, will take part in all the victory loan parades throughout the country and in addition will give concerts in various cities.

It probably will reach home next Thursday.

SPARTACANS TRY TO HOLD PARADE IN ROME; HALTED

Strike in Memory of "Red" Leader Was Not Success.

By Associated Press Leased Wire
Rome, Thursday, April 10.—(Delayed)—A group of men, styled Spartacans, carrying a Red flag, attempted a demonstration here today, but the people attacked the crowd and dispersed it.

Several of the Spartacans were hurt and others arrested.

There ensued an enthusiastic demonstration in honor of the army and the victory of the allies. Many cries were heard of "Long Live the King," "Long Live Our Italian Flume."

STRIKE IS FAILURE.
By Associated Press Leased Wire
Rome, Thursday, April 10.—(Delayed)—The general strike of 24 hours called by the Socialists for today in memory of the victims of "red week" in Berlin and also in honor of the birthday of Lenin, the Russian bolshevik premier, was not a complete success.

Several stores refused to close their doors and the railways worked normally. The street cars, omnibuses and all means of urban transportation suspended operations.

The garrison was reinforced by troops from the province. Detachments guarded the royal palace, the Vatican, the ministries, banks and public offices. Armed pickets patrolled the town.

Up to the present there have been no disorders. The undisturbed condition of the city perhaps was due somewhat to a heavy rain.

A Rome dispatch on April 9th said the Socialists there had decided upon a general strike for 24 hours, on Thursday, in memory of Dr. Karl Liebknecht and Rosa Luxemburg, killed during the winter demonstrations in Berlin and also in honor of the birthday of Nikolai Lenin, the Russian bolshevik premier.

It was stated that the government had forbidden meetings by both the anti-war and pro-war Socialists fearing grave clashes would result.

MEAT WILL BE HIGH AS LONG AS EUROPE IS FED BY AMERICA

Packers Cannot See Any Likelihood of Lower Prices Soon.

By Associated Press Leased Wire
Chicago, Ill., April 11.—The American Meat Packers' association in a statement issued today, declares that lower prices for meat may not be expected until the war stricken countries of Europe are able to resume their quota of production.

The statement reads in part: "The situation today in the meat industry is just about what Herbert Hoover and other food administration officials said it would be, as far back as the first of the year."

"That high prices are caused largely by heavy demands rather than any control, aimed to stimulate production, has recently been illustrated very clearly in the case of hogs. When the minimum price fixed for hogs was removed, the food administration predicted that the prices might go still higher. The prediction is now being verified."

No European Supply.
"High prices will continue for a long time. Each day that brings final peace nearer means a greater call on this country for meat. The supply of meat is dependent first of all on the supply of livestock. European herds have been reduced by war. To that extent, world production of livestock is crippled."

"But the armistice, instead of having reduced the demand for meat, has given us more than 200,000,000 additional mouths to feed, either wholly or in part. As shipping becomes available an increasing number of hungry nations will want provisioning."

"The brunt of meat export and production will be borne by the United States, South America and Australia. Livestock in Argentina has not increased as much as wished. Australian herds hurt some time ago by drought, are now being replenished. Our own live stock has not increased commensurately with foreign needs."

STATE LABOR URGES SOVIET RECOGNITION

New Party Favors Hands-Off Policy By Allies in Russ Affairs.

By Associated Press Leased Wire
Springfield, Ill., April 11.—Recognition of the Russian soviet government by the United States and the withdrawal of American troops from Russia was embodied in a resolution adopted unanimously by the delegates to the state convention of the Illinois Labor party here today.

Other resolutions, calling for the recognition of Ireland as a free country and demanding that President Wilson use his influence at the peace conference in behalf of India to obtain self-determination, were also adopted.

N. S. Hardicker had concluded his address about labor conditions in India, when John H. Walker, former head of the Illinois State Federation of Labor, was recognized and proposed that the committee on resolutions take action.

Leave Russia Alone.
"Not only Ireland and India deserve the right of self-determination," Mr. Walker declared, "but I believe in the self-determination of different peoples in different countries; that they be free to govern themselves. I believe Russia should be let alone and instead of criticism and interference, they should be given sympathy and help."

The resolution committee then advised the chairman of the convention that a resolution along the lines of Mr. Walker's talk was ready for adoption. The resolution said in part: "We ask for the immediate recognition of the soviet government to the end that friendly diplomatic and commercial relations be established with Russia at the earliest possible date."

Government ownership of railroads, under the direction of a board of directors, composed of representatives of the government, the railroads and the wage earners, was urged by Glenn H. Plumb, attorney for the brotherhoods.

400,000 RAILWAY WORKERS TO GET WAGE INCREASE

\$65,000,000 Increase is Ordered By Rail Administration.

By Associated Press Leased Wire
Washington, April 11.—Wage advances aggregating \$65,000,000 were ordered today by Director-General Hines for 400,000 railroad engineers, firemen, trainmen and conductors in both passenger and freight service—members of the Big Four railway brotherhoods—retroactive since January 1, 1919. The brotherhood demand for time and a half pay for overtime was granted only for men engaged in yard service and for the others this question was referred to the railroad administration's board of adjustment.

The board of adjustment, after considering a number of disputes relating to railway trainmen and engineers. The increases were arranged according to a contemplated schedule, one of the aims of which was to restore the wage relationship existing before the railroads increase in wages last year.

Every advance in wage per year amounts to \$60. This practically completed the war cycle of wage increases granted railroad men since the government took over management of the roads 15 months ago.

Only a few minor requests for more pay remain to be acted upon.

FIVE HIGH CLASS LYCEUM NUMBERS

A series of high class entertainments will be offered as a lyceum course next winter through the Y. M. C. A. and the churches of Dixon, arrangements having been made with the Coit-Aber Lyceum company for five high-class attractions, one for each month beginning with November.

The program, as arranged, will be the first of the series ever presented in Dixon. The opening number will be the Davies' Light Opera company, which will present any one of a large number of popular numbers, including The Mikado, Pinaflore and others.

The second number will be The Fighting Yanks, a male quartet of exceptional merit. The members are veterans of the World war and were discharged because of wounds. They are now giving entertainments in France.

The Apollo Concert company, remembered by many who heard it at the Rock River Assembly, will be the third number.

John Kendrick Bangs, celebrated American humorist, will be the fourth number, and the last will be Davies, the Magician.

All churches of the city will unite with the Y. M. C. A. in sponsoring these entertainments and it is expected they will make a very delightful course.

10,000 Aliens Under Bonds Are Released

By Associated Press Leased Wire
Washington, D. C., April 11.—Putting into effect the policy of removing war time restrictions as fast as possible on enemy aliens, the department of justice has ordered the release from parole and cancellation of bonds of more than 10,000 of these aliens throughout the United States.

As fast as their records can be examined in Washington, orders for removal of restrictions are sent to United States attorneys. Some enemy aliens will continue to be held under restrictions and bond until peace is declared, however. This applies only to the aliens arrested during the war and subsequently paroled and not to those interned.

AMERICANS AND RUSS RAID RED POSITIONS AND TAKE PRISONERS

No Further Reports Are Received Regarding the Mutiny of Yanks.

BULLETIN
By Associated Press Leased Wire
Archangel, Thursday, April 10.—(Delayed)—American and Russian forces yesterday afternoon raided the Bolshevik position about Bolshe Ozeraki, taking nine prisoners and two machine guns and destroying a block house.

By Associated Press Leased Wire
Archangel, Thursday, April 10.—(Delayed)—The American cruisers Galveston and Chester, carrying American Engineer troops and Brig. Gen. W. P. Richardson, the new commander of the American forces in North Russia, arrived at Murmansk Tuesday.

AWAIT MUTINY REPORT
By Associated Press Leased Wire
Washington, April 11.—There were no additional reports at the war department early today on the situation at Archangel, where a company of American troops involved nearly two weeks ago in a threatened mutiny, refusing to obey orders to entrain for the fighting lines, until appealed to by their regimental commander.

Absence of news since the report made public last night after an Associated Press dispatch from Archangel had described the incident, was regarded as a favorable sign.

It was assured that the "general mutiny," which members of this one company would develop unless prompt assurances came from Washington that the American forces in northern Russia were to be withdrawn, could not have materialized without Colonel George E. Stewart, the American commander having found means to rush through a report.

One Man Responsible
It was noted in an official statement given out last night by the war department that only one member of the company continued to refuse to obey orders after Colonel Stewart had taken personal charge of the situation. It appeared possible to some officers here that the situation, was started by this man. One man can do much to upset a command. The fact that Colonel Stewart was obliged to agree to release this man from confinement before the company would obey orders and board the train for the front line indicated that this soldier had obtained a grip on his comrades.

Situation is Trying
Additional reports that would disclose the extent to which the unrest has spread through the entire command were awaited with considerable anxiety. It was recognized by officials that the situation of the American forces in northern Russia was peculiarly unpleasant. Weather conditions are trying because of the extreme cold; there is little of the dash about work there that characterized the war in France, and reports from home tell of the return of the army to civil life and of receptions, parades and celebrations of victory.

The whole picture is one well calculated, it is said, to make the troops homesick and easy victims of bolshevik arguments or similar agitation. In their own words, they are a high quality of men, but in the past they own ranks.

Are Selected Men
The units at Archangel are not seasoned regular soldiers. They are select-morale, in facing the unpleasant task before them so long without openly manifested discontent. Even now, officers argued, the company would show an immediate change of heart if a general attack on the bolsheviks was undertaken.

No uneasiness is felt concerning the American contingent in Siberia which is largely composed of old time regulars.

SMALL POX EPIDEMIC IN STATE; AURORA, 74

By Associated Press Leased Wire
Springfield, Ill., April 11.—Smallpox is rapidly increasing in Illinois, according to Dr. C. St. Clair Drake, state director of health, who urged universal vaccination today as a means of heading off an epidemic.

In a report forwarded to the United States public health service, Dr. Drake said 401 new cases of the disease were reported in March.

89 YEARS AGO TODAY

April 11 is Day of Especial Significance to the People of City of Dixon.
On April 11, 1830, 89 years ago today, Father John Dixon, the founder of Dixon, arrived at Ogee's ferry with his family, purchased the ferry, changed its name to Dixon's Ferry, and thus founded the community which has developed into this city. Father Dixon, who had the contract to carry the mail from Peoria to Galena by stage, had crossed the river at Ogee's Ferry many times. He liked the place, negotiated for its purchase, and on the day of which today is the anniversary, he arrived here to take up his abode.

WILSON PEACE TERMS OR NONE, RANTZAU STATES

German Delegate Says Allies Must Help All Industry.

By Associated Press Leased Wire
Berlin, Thursday, April 10.—(Delayed)—Count von Brockdorff-Rantzau, foreign minister, speaking before the national assembly at Weimar today said Germany would not sign a peace treaty which deviated in any essential from President Wilson's 14 points. "The financial demands to be made in the peace treaty are obviously causing as much difficulty to our opponents as those regarding territory," the foreign minister said. "It is impossible to solve the question of financial claims without negotiating with our experts at the conference table. We will give a clear account to our opponents relative to their demands and our ability to pay."

"Our opponents," continued the minister, "cannot dismember and paralyze Germany and at the same time extract from the resources of the country the enormous sums they expect from them. For that purpose we require the release, industrially and agriculturally, of the important west which, contrary to the armistice terms, is cut off from the rest of Germany."

"We need to have the blockade speedily raised and we require the importation of food stuffs on conditions which will make their purchase possible. "All the states, which participated in the war, find themselves in the same distress and hardly a nation is not disappointed by a peace that is a terrible danger because of the encouragement given by it to disruptive forces."

GERMAN ENVOYS WILL GET TERMS WITHIN 3 WEEKS

Only Few Details Are to Be Settled Says British Official.

By Associated Press Leased Wire
Paris, April 11.—(Havas)—The peace conference has reached an agreement on all questions concerning peace with Germany, reparations, indemnities and the frontiers of the Rhine and Poland, according to an interview in the Petit Journal with the private secretary of Premier Lloyd George. Certain details remained and, it is added, they will be settled in two or three days.

The German delegates will be summoned to Versailles within two or three weeks.

The British premier, his secretary is quoted as saying, thinks that if the allies agree as well at present as during the war the achievements of peace conference will be lasting and numerous dangers, including Bolshevism, will be averted.

PROGRESS IS SATISFACTORY
Washington, April 11.—More progress has been made in the peace conference during the past 48 hours than during the entire previous two weeks, according to advices received at the white house today from Paris.

Without giving details, these advices indicated that some of the chief difficulties delaying progress in the negotiations had been overcome and that the president had secured the acceptance of certain of the important points for which he had been contending.

Strange Names Found on Roster of A. E. F.

Paris, March 19.—(Correspondence of The Associated Press.)—The first name on the alphabetical list of the American Expeditionary Force is Private Aaae and the last Corporal Zeppenfelt. Between the two names more than 2,000,000 others.

George Washington, Abraham Lincoln, General Ulysses S. Grant, Robert E. Lee, Woodrow Wilson, several Caesars and a few Bismarcks adorn the ranks with intermittent frequency. Excluding the commander-in-chief of the army and navy, there is but one Woodrow Wilson. He is a private, according to Stars and Stripes has just been placed in the working personnel of Base Hospital No. 27, which was organized in Pittsburgh.

There is an abundance of the names of great men including 74 George Washingtons. The name of the first president is surpassed by 79 Robert E. Lees, who holds the record for bearers of the name of great men. There are but two Abraham Lincolns and seven Grants, twelve Caesars and four Bismarcks.

Among the "common people," there are about 51,000 Smiths. True to their traditional predominance of the directories of most cities, they dominate the American Expeditionary Force in numbers. There are 39,000 Johnsons, 22,500 Jones and a like number of Greens. Sullivans aggregate 10,500, Browns 9,000 and Cohens 4,500.

400,000 RAILWAY WORKERS TO GET NEW WAGE RAISE

(Continued from Page One)

pay increases allowed by the railroad administration to the 2,000,000 railway employees is at the rate of \$822,311,000 a year, more than \$400 average per man. Thus the total payroll of America's railroads is raised nearly to \$3,000,000,000 a year from the basis of approximately \$2,000,000,000 on January, 1918 when the roads passed into the government's hands.

The \$65,000,000 added to the payrolls of members of the "big four" brotherhoods brings the total granted this class of employees in the last three years to approximately \$275,000,000 or approximately \$69 per man.

Will Be Paid Soon
Back pay for work since January will be given the brotherhood as soon as railway paymasters can work out the amount due.

In the first general wage advance made by the railroad administration following the recommendations of the railway wage commission, approximately \$100,000,000 a year was distributed among the railway employees. About \$240,000,000 of this went to trainmen and engineers and about \$260,000,000 to other employees. On supplemental orders about \$150,000,000 was added to pay rolls of the shopmen, about the same to maintenance of way men and clerks and about \$45,000,000 to telegraphers and station agents. Railway accountants calculate that in 1918 and 1917, the years immediately preceding government control, the railway companies increased wages \$350,000,000. With the \$822,000,000 added by the railroad administration the aggregate advance of railway men wage's in three years is set at approximately \$1,172,000,000 or about \$587 per man. Railway payroll in 1917 was calculated at \$1,175,000,000; in 1918 at \$2,538,000,000, and this year at \$2,822,000,000.

Other Grades Benefit
Comparatively small increases in pay are expected soon for dining car and sleeping car employees.

Railroad companies estimate the wage increases at nearly \$100,000,000 more than the railroad administration. Railroad accountants calculate that about \$1,000,000,000 will be forthcoming from the rate increase last year. The railroad administration's figures today on rate advances indicates that more than eighty percent of this is eaten up in wages.

RABBIT PELTS SOLD
By Associated Press Leased Wire
New York, April 11.—Approximately 114,000 pounds of rabbit pelts from the Antipodes brought good prices at the fur auction here yesterday. Total sales amount to \$750,000 bringing the grand total to date to \$3,250,000.

Gov. Lowden Refuses Darnell Extradition

Springfield, Ill., April 11.—The Rev. James Morrison Darnell, Rockford, the "martyr parson," will not be returned to the state of Minnesota to answer to a charge of abandoning his 5-year-old child, of which Ruth Soper Darnell is the mother.

The requisition was refused by Governor Lowden today following a hearing which occupied the greater part of the afternoon. The decision makes Rev. Darnell free to continue his honeymoon with his fourth wife, Miss Woods of Elgin.

The governor held that Darnell is not a fugitive from justice from Minnesota. He said the wife and child abandonment act has often caused "the hardest kind of hardship to men, because women, tiring of their homes, had gone away, ostensibly to visit relatives; the husband has gone there to visit for a day or two, begged his wife to return to him, and, returning alone, had been indicted for wife abandonment."

Doughboys Practice Baseball in Paris

Paris, April 3.—(Correspondence of the A. P.)—Bright shining days have attracted crowds of American doughboys into the Paris boulevards, where they are playing catch and batting up up flies preparing for the baseball season. French children never tire of watching the Americans practice with their big gloves and face masks. In the neighborhood of the Hotel Crillon where the American peace delegation is posted, the parking of the boulevard Des Champs Elysees affords ball players an excellent practice ground.

Hoop rolling, top spinning and the Punch and Judy shows along the boulevard offer slight attraction to French youngsters when the khaki-clad ball players are practicing.

Yanks Take Helmets From Boche Police

Paris, April 1.—(Correspondence of the A. P.)—When the German officials, in the territory occupied by the Americans, issued orders for policemen to don their pre-war uniforms, they didn't realize what action boche helmets have for Yankies. Policemen were rushed all along the line by Americans who could not resist the temptation to capture helmets from the heads of live Germans. As a consequence of the onslaughts made upon the policemen, American officers asked German officials to discontinue the use of helmets.

Home-made "Whiskey" Caused Three Deaths?

Freeport, Ill., April 10.—Accidental poisoning from an unknown poison was the verdict reached by the coroner's jury on the mysterious deaths of Mrs. John Soladay, Mrs. Oscar Ruthe, and "Red" Galbraith yesterday afternoon. Post mortem examinations made of the stomachs of Mrs. Soladay and Galbraith and the testimony of the attending physician regarding Mrs. Ruthe brought to light the fact that all were killed by the same kind of poisoning. It is thought that the poison might have been contained in the liquor made by "Red" Galbraith.

An analysis of the liquor found in Galbraith's room and of the liquid taken from the stomachs of the victims is being conducted by a Freeport chemist, and the results of his work will be announced. It is thought that the chemical analysis will show that the home-made "whiskey" contained a poison which would affect the stomachs in the same manner that they were affected. A Freeport physician testified at the inquest that there were several poisons which might cause such a death as that occurring to Mrs. Soladay, Mrs. Ruthe, and Galbraith. Among the poisons he named as being possible were wood alcohol, arsenic and other chemicals of a corrosive nature.

Proposed Measures Described Bad Eggs

By Associated Press Leased Wire
Springfield, Ill., April 11.—An egg is "bad when it is merely 'added,'" under the provisions of legislation pending in both houses, and all dealers in eggs, "except those retailers who do not buy from the producers direct and who do not sell in lots greater than one case," would be required to obtain a license from the department of agriculture to safeguard the public against unfit eggs.

Measures, sanctioned by the agriculture department, have been introduced by Senator Roos and Representative Frederick which place stringent regulations upon persons or firms engaged in the eggs handling business.

Candling of eggs would be required by persons or companies buying eggs for release or consignment with provisions for recording the name of the person doing the candling and the date, together with the license number of the company.

The measures also would require those engaged in the manufacture of egg preparations to have a license costing \$300 annually.

THE PROMOTER'S WIFE

By JANE PHELPS.

BARBARA MAKES TWO CALLS AND IS FURTHER DISTURBED CHAPTER LXV.

To my disappointment Lorraine was not at home. I really felt badly I did not want to return home, and could think of no other friend upon whom I cared to call in the mood I then was in. Suddenly I thought of Blanche Orton. While I was jealous of her, I disliked her, I resolved her at my house and on occasion visited her. Perhaps if I were very tactful I might get something from her.

"To Mrs. Orton's, Thomas," I would try it. Anything was better than fretting and fuming at home. "Mrs. Orton will be down in a moment," the trim little maid told me. After waiting about ten minutes I heard the rustle of silk and Blanche appeared in one of those wonderful negligees of hers. A daintily designed affair, but wonderfully becoming. "What a lovely Oriental looking robe," I explained after she had greeted me. Unconsciously thinking what a lot it must have cost.

and Mrs. Collins Dysart. There will be no meeting of the society the coming week.

FOR MR. AND MRS. SMYTHE—

Because of the omission of some lines of type the account of the party given Tuesday evening for Mr. and Mrs. Walter Smythe, of Palmyra, was rather a mixed-up affair. The party was a surprise, given at the home of Mr. and Mrs. John Smythe, and was arranged by Mrs. Glenn Swartz and Mrs. Oscar Buhler. A rocking chair, presented by Russell May, was the gift of the company.

"Isn't it! I am horribly extravagant when it comes to this sort of thing. But I just have to have them, that's all."

"I should have them too if I could wear them. But such extreme styles are not becoming to me. Someway I looked too fanciful in them."

We talked of people we knew, of the new plays, and of clothes, that never failing topic when two women are together. I tried for a long time to screw up my courage to say something about Neil, and finally she gave me an opening.

"But how charming. You have been married—let me see, how long?" "Oh, I know I am silly," I interrupted, not quite liking her tone, nor the little eyebrows.

"What do you do when he is out. You are often alone evening, are you not?" It was an impudent question, impudently asked, but I would not quarrel with her, that had not been my object in calling.

"Not often unless he is over here with you." It was a bold stroke. But it would at least let her know I was

aware he visited her without me.

"Well that is rather often." She drew the remark.

"Yes, but when it is business a woman will concede a lot you know."

"When it is business—yes."

Her tone, the repetition of my own words made me flush with anger. What was she trying to do? Was she intending to imply that Neil came to see her socially, not business? I bit my lips to keep back a retort suited to her implication, then said instead:

"You see Neil knows so many people, has business with them. Really, I tell him sometimes that his acquaintance is becoming too numerous. That it is fortunate we have decided upon so large a home, that we will need it to entertain them all."

"Your home is charming, exquisite. Are you proposing to entertain a good deal? I judge so from your remark."

"Yes, I shall almost immediately give some small affair, then later, some larger ones. The house is not quite ready, but will be very soon."

"How delightful! I suppose you have made up your lists. If you need any men to fill out, I know some delightful fellows who are popular, and who would be a great addition to any social affair."

"I shan't forget, but will call upon you if I need them." We were talking all around Robin Hood's barn, and getting nowhere, as father used to say. So I plunged in, remarking:

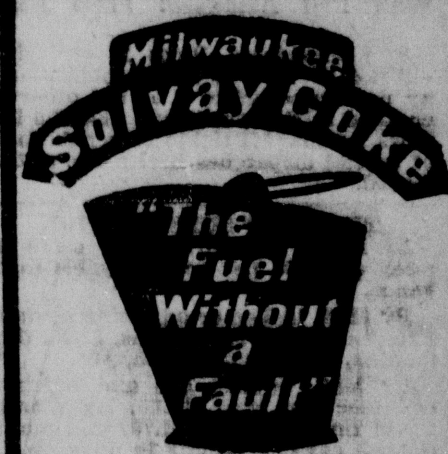

"How can you endure those coarse vulgar men Neil sees when he talks his business here with you?" It was crude, tactless, but I had become desperately anxious to find out about Neil's affairs. I had been thwarted

at the office, and would not be her—if I could help it.

"What a question!" she laughed but there was no laughter in her tone. "I endure them because I like Neil, and am willing to sacrifice myself to help him, which I understand is more than you are willing to do." She spoke very slowly, halting almost.

"Indeed it is! I can't endure to associate with such people. I think Neil is to be congratulated that he has a friend so unselfish. For of course you reap no benefits from these orgies." It was not polite but I could not help it. Then I left, boiling with indignation, while she smilingly bade me good bye, and asked me to come soon again.

To-morrow—Barbara Welcomes Neil more eagerly than ever before.

FIGURING THE COSTS.

The cost of our war with Germany
is now estimated at \$30,295,000,000. The
cost to England is estimated at more
than forty billions; to France, more than
twenty-three billions; to Italy, sixteen
billions; to Canada two billions. The to-
tal for this country and the allies named
amounts to more than \$112,900,000,000.
These figures represent merely the
money paid out for war expenses, and
do not include devastations, damages to
property, trade and other losses of in-
calculable extent. On the war debts in-
curred by actual expenser we and our
allies must pay ten billions a year in
interest.

Our war with Germany cost us about
five times as much as the war of 1861-5,
a struggle lasting more than twice as
long. This was not merely because of
a higher scale of prices for everything
but because the war with Germany was
a much bigger undertaking and was
waged in a big way with a view to
smash the opposing force in the shortest
possible time. Though the bill is stag-
gering, the method is commendable be-
cause it brought the struggle to a
speedy end and saved hundreds of thou-
sands of lives. The total of the slain in
all the nations at war has been estimated
at nearly seven and a half millions.
In view of such stupendous loss of life
and treasure, it is no wonder that a
chastened world turns with horror from
the thought of more war and that the
leaders of the nations are striving to
provide means to secure lasting peace.

This from the Chicago Tribune's re-
view of late Washington news definitely
places Uncle Joe Cannon: "Uncle Joe
Cannon, just back from Illinois, says
the sentimentalists of his constituency
favored a league of nations, but that
when he talked to them about the possi-
bility of their sons being called upon to
fight Balkan rows, 'why, hell, they are
just naturally against it.'"

When the farmers are prosperous,
everybody in America gets enough to
eat. The winter wheat crop forecasted
to bring the farmers nearly two billion
dollars, with the spring wheat crop yet
to hear from. "We should worry."

Forcing Spartans to walk through
machine gun spray may have been the
nearest the German government authori-
ties could come to making the slaugh-
ter look like a case of suicide.

Foreign embassies in Washington
will remain wet. That ought to give the
sober American diplomats an advan-
tage.

PEOPLE'S COLUMN

To the Women Voters of Dixon—

Someone, probably "religiously in-
clined" has circulated the report that
Judge Watts, candidate for mayor is a
"wet man." Now I want to say that
just previous to the time that our as-
semblies were closed a rousing prohibition
meeting was held at the Y. M. C. A.
building and among other good speak-
ers was Judge Watts, who became so
enthusiastic that some of the Auxiliary
ladies who were serving dinner at five
cents a plate, of whom I was one, sug-
gested that someone on the platform
"pull the judge's coat tail as the dinner
was getting cold," which was done, al-
though he said he had more good things
to say.

Also on the day the question was
decided he furnished a car and his daugh-
ter carried voters to the polls all day,
which certainly proves that the report is
false and that he is worthy and en-
titled to your support, although it is the
government that is in charge of these
conditions now.

Sincerely,
Mrs. M. D. Grimes.

ON THE MAYORALTY.

Editor of The Telegraph:
It seems that a man who did his best
to destroy the commission form of gov-
ernment in the City of Dixon is out of
place running for mayor under a
form in which he has no sympathy.

HIGHER PRICES OF HOGS CAUSE UPTURN IN CORN

By Associated Press Leased Wire

Chicago, Ill., April 11.—Corn took a decided upward swing in value today, as a result of higher prices on hogs, and because of wet weather and the scantiness of country offerings. Besides it was said the U. S. shipping board would not allocate any more vessels for Argentine trade. Shorts bought freely on the advance. Opening prices, which ranged from 1.4 to 3c higher with May \$1.57 to \$1.57 1/4 and July \$1.50 to \$1.52, were followed by only moderate setbacks, from initial top figures.

Oats were governed by the same factors as corn. After opening 1.8c to 3.4c higher, the market scored further gains.

Provisions ascended with hogs and corn. Big shipments from here continued.

Prospects of more liberal arrivals next week led subsequently to a reaction, and so too did eastern messages asking on what basis exporters could cancel purchases. The close was unsettled 1/2 to 1 1/2 net higher, with May \$1.57 1/2 to \$1.58 and July \$1.49 1/2 to \$1.50.

BIRD CLUB GAVE PROGRAM

The program given by the Deep Glen Liberty Bell Bird club boys of the seventh grade in the Central school this afternoon was as follows:

Teacher's address to classes—Miss Lindberg.
Piano solo, The Glow worm—Eugene Vest.
A Talk, Our Club—Jack Forrest.

Reading, The Bobolink—Richard Forrest.

Reading, How Can We Protect the Birds?—Fred Bott.

Gov. Lowden's Proclamation—Jack Forrest.

Violin Solo, Simple Congession—Mer edith Vest.

Reading, The Birds and I—Fred Bott.

Reading, The Birds and Insects—Jack Forrest.

Our Allies, the Birds—Eugene Vest.

Pledge, repeated by all.

The Liberty Bell Bird club was organized January 1st, 1913, with one member. Up to February 18, 1919, exactly 861,326 persons had signed its pledge. From January 1, 1918, to January 1, 1919, the war year, more than 39,000 joined the club. Its sole object was to save the song and insectivorous birds and bring back the right balance of bird life.

Its founder saw that the majority of birds' clubs confined their activities to the cities. The club was especially formed to interest, instruct and enlist the support of men, women and children of the country, the place where the birds are really found.

The need of such a club is readily seen when reports show that ninety per cent of the bird life of the country has been destroyed and \$1,300,000,000 a year is lost by the farmers and fruit growers by the ravages of insects. The only natural enemies of all insect life are birds.

The number of insects eaten by birds is almost unbelievable. In mass, in summer more than 21,000 bushels are eaten daily.

The Liberty Bell Bird club has brought the battle for birds before 4,335 county superintendents, 122,471 teachers, and has introduced bird study into thousands of country schools. It was at the fore of the bird sanctuary movement, advocating the establishment of a protected plot dedicated to the birds in every community throughout this country, in all cemeteries and on every farm.

The club has now four official bird sanctuaries where birds are protected and carefully and scientifically studied for the benefit of its members. No. 1 it at Wallops Island, Va.; No. 2 at the Wheaton Game farm, Chincoteague Island, Va.; No. 3 at Buck Hill Falls, Pa.; and No. 4 at Cobb Island, Md.

Thousands of bird houses have been put up by the club members, who have faithfully fed the birds in winter and given them water in the summer.

COLD HINDERS ACTION

By Associated Press Leased Wire
London, Thursday, April 10.—A war office communication dealing with the situation on the Archangel front issued tonight says:

"The frozen surfaces and the melting snow are making movement difficult. In the action at Srednekhegenga, April 5, the defense was carried out by Liverpool and Yorkshire troops and a company from the Russian army supported by artillery of the Slav-British allied region under British officers. The defense of Bolshe Ozerki against the attacks of April 1 was carried out by the Russian national army whose artillery had French officers. It was their first fight and they behaved with exemplary steadiness.

"In one case a section of the Russian field howitzers were taken out of the gun pits and reversed at a range of 400 yards against a large body of the enemy on Skits. A company of American infantry was in support on this sector.

"The royal air force greatly assisted with Canadians, South Africans and Russians as pilots and observers."
